

# Journal of Applied Biology & Biotechnology

## Special Issue on: Microbial Biotechnology – Applications and Challenges

This special issue cover the current technical problems and recent development trends in microbial biotechnology from a multidisciplinary perspective. It focuses on a broad spectrum of topics on different microorganisms and their modern applications and implications in agriculture, soil science and forestry, industry, and public health and medicine, covering an avalanche of new knowledge available through research.

### Topic covered in special issue

Potential contributions to the special issue include but are not limited to:

1. Microbial enzymes
2. Nano technology
3. Environmentally friendly nanotechnologies for Bio conversion
4. Nano based mechanism of waste treatment
5. Microbial Product development
6. Medical Microbiology
7. Industrial Microbial technology
8. Marine Microbiology

**Keywords:** Microbial Technology, Nano technology, Product development, Enzymes.

### Manuscript submission

Authors are invited to submit the high quality articles (Research articles, review articles as well as short communications). Submitted papers should be well formatted and use good English. All the submitted papers will be screened for plagiarism using iThenticate and will be subjected to peer-review. Accepted papers will be published under the special issue on journal's website. Manuscripts should be submitted online through journal's online submission system. Please visit this link for further details:

<https://jabonline.in/submitmanuscript.php>

Authors are requested to read the journal's policies and author guidelines available here: <https://jabonline.in/authorsguideline.php> and arrange your manuscripts as per journal's instructions.

**Article processing charges:** All the articles submitted in special issue will received a partial 25% waiver in APC.

**Submission Open: December 10, 2021**

**Submission Deadline: March 30, 2022**
